(54) Title: METHOD, COMPUTER PROGRAM PRODUCT AND APPARATUS FOR ENHANCING A COMPUTERIZED TO-  
MOGRAPHY IMAGE

(57) Abstract: A method is disclosed for enhancing a CT image com-  
posed of a plurality of elements, each having an intensity value in-  
dicative of a tissue type. The method comprises receiving (101) a  
first CT image, providing, by enhancement processing (103) based  
on said first CT image, a plurality of copies of said first CT image,  
and combining (104) said copies with said first CT image, whereby  
an enhanced CT image is provided. The combining is based on a  
classification with respect to intensity values of regions within said  
first and said copies of said first CT image. The enhancement pro-  
cessing (103) is performed with respect to predetermined intensity  
value ranges. The method may be implemented as a computer pro-  
gram product or as a device.
